

Funding Pitch Deck

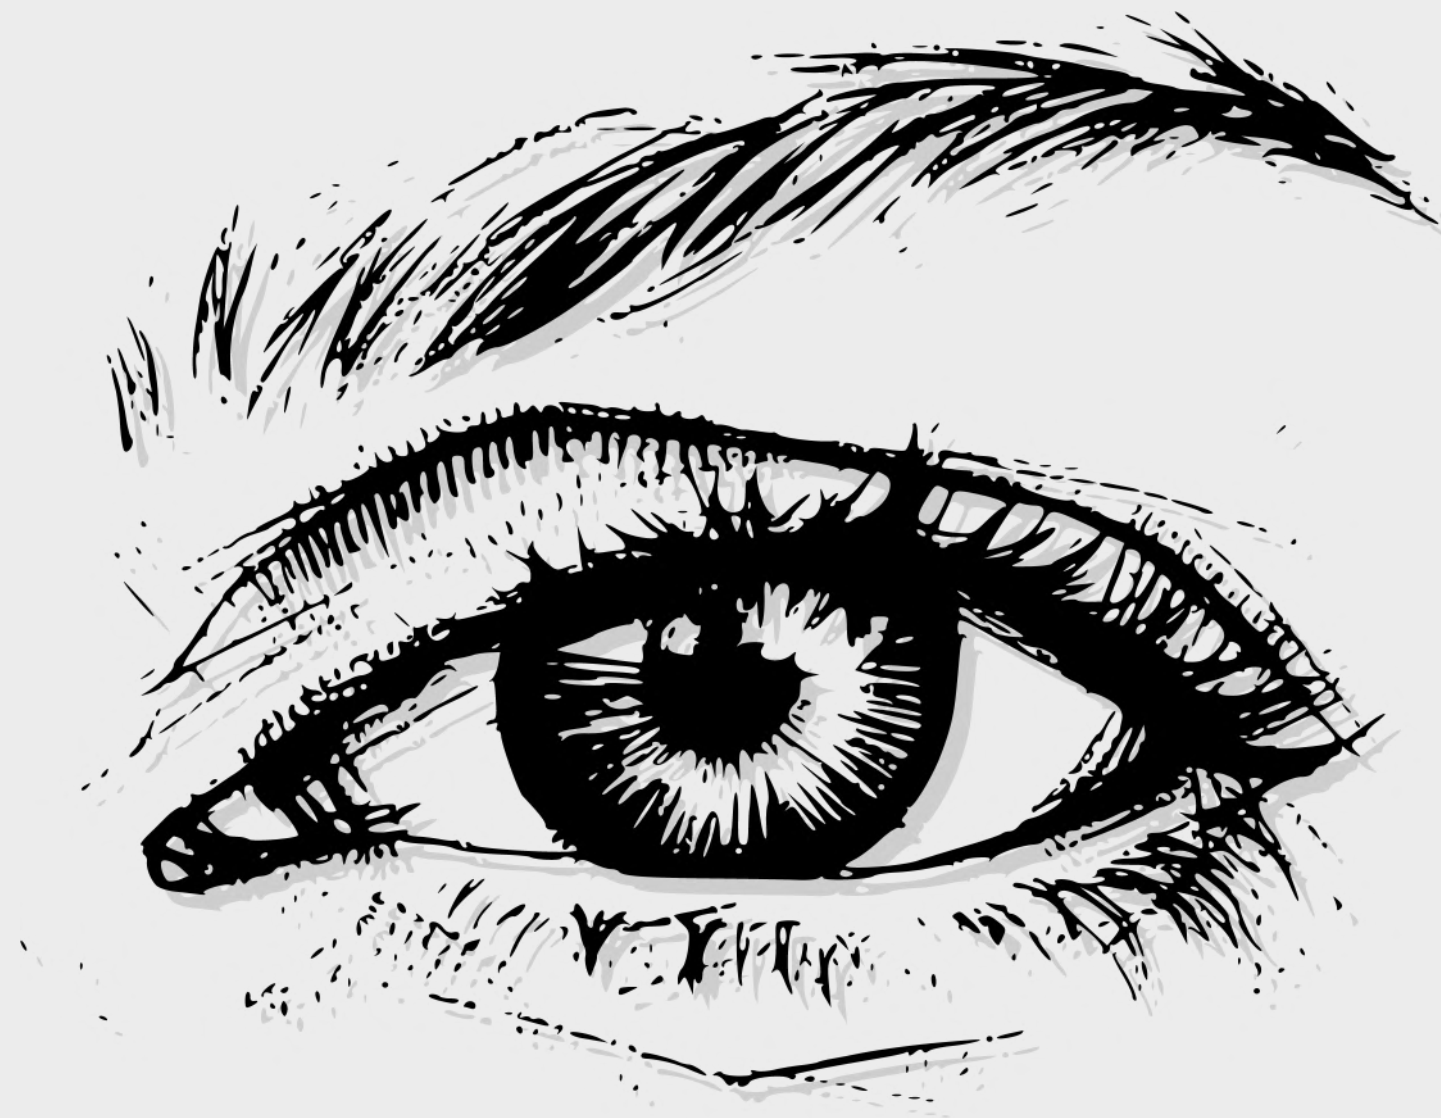

TABLE OF CONTENTS

01 Features

02 Concepts

03 Roadmap

04 Team

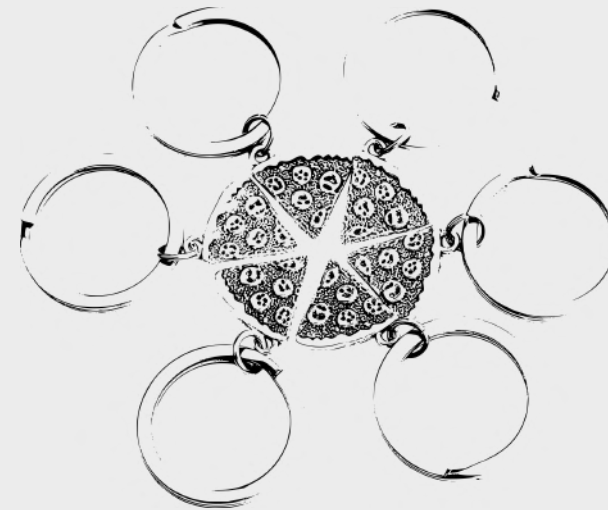

05 Contact

Problems

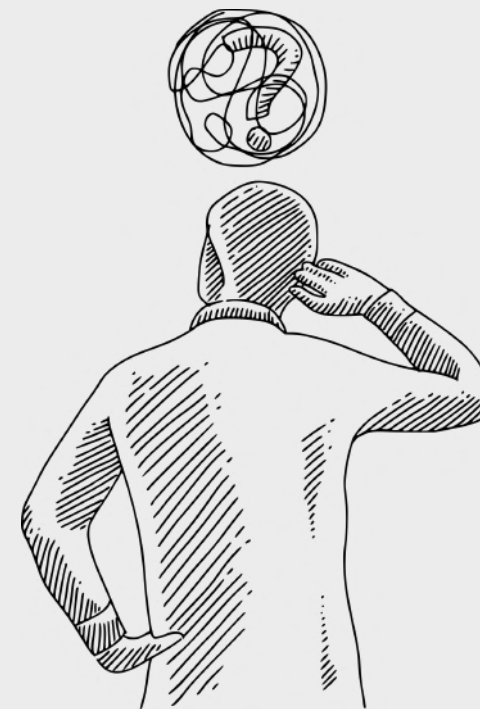

BRIDGING REAL WORLD

Unability of current web3 use cases to connect traditional activities in its economy.

SEPARATION

Decentralized nature of the crypto space leads into severance of ideas, talent, liquidity and effectiveness.

USER EXPERIENCE

Interaction across multiple blockchains differs. Space is full of phishing traps and non-trivial education needed to use dapps.

GREEDINESS

Many projects aim for profits rather than long-term common benefits, throwing shades into the blockchain tech.

Features

FEATURE 1. QUESTS

ASK OR PROVIDE HELP TAILORED TO YOUR SKILLS

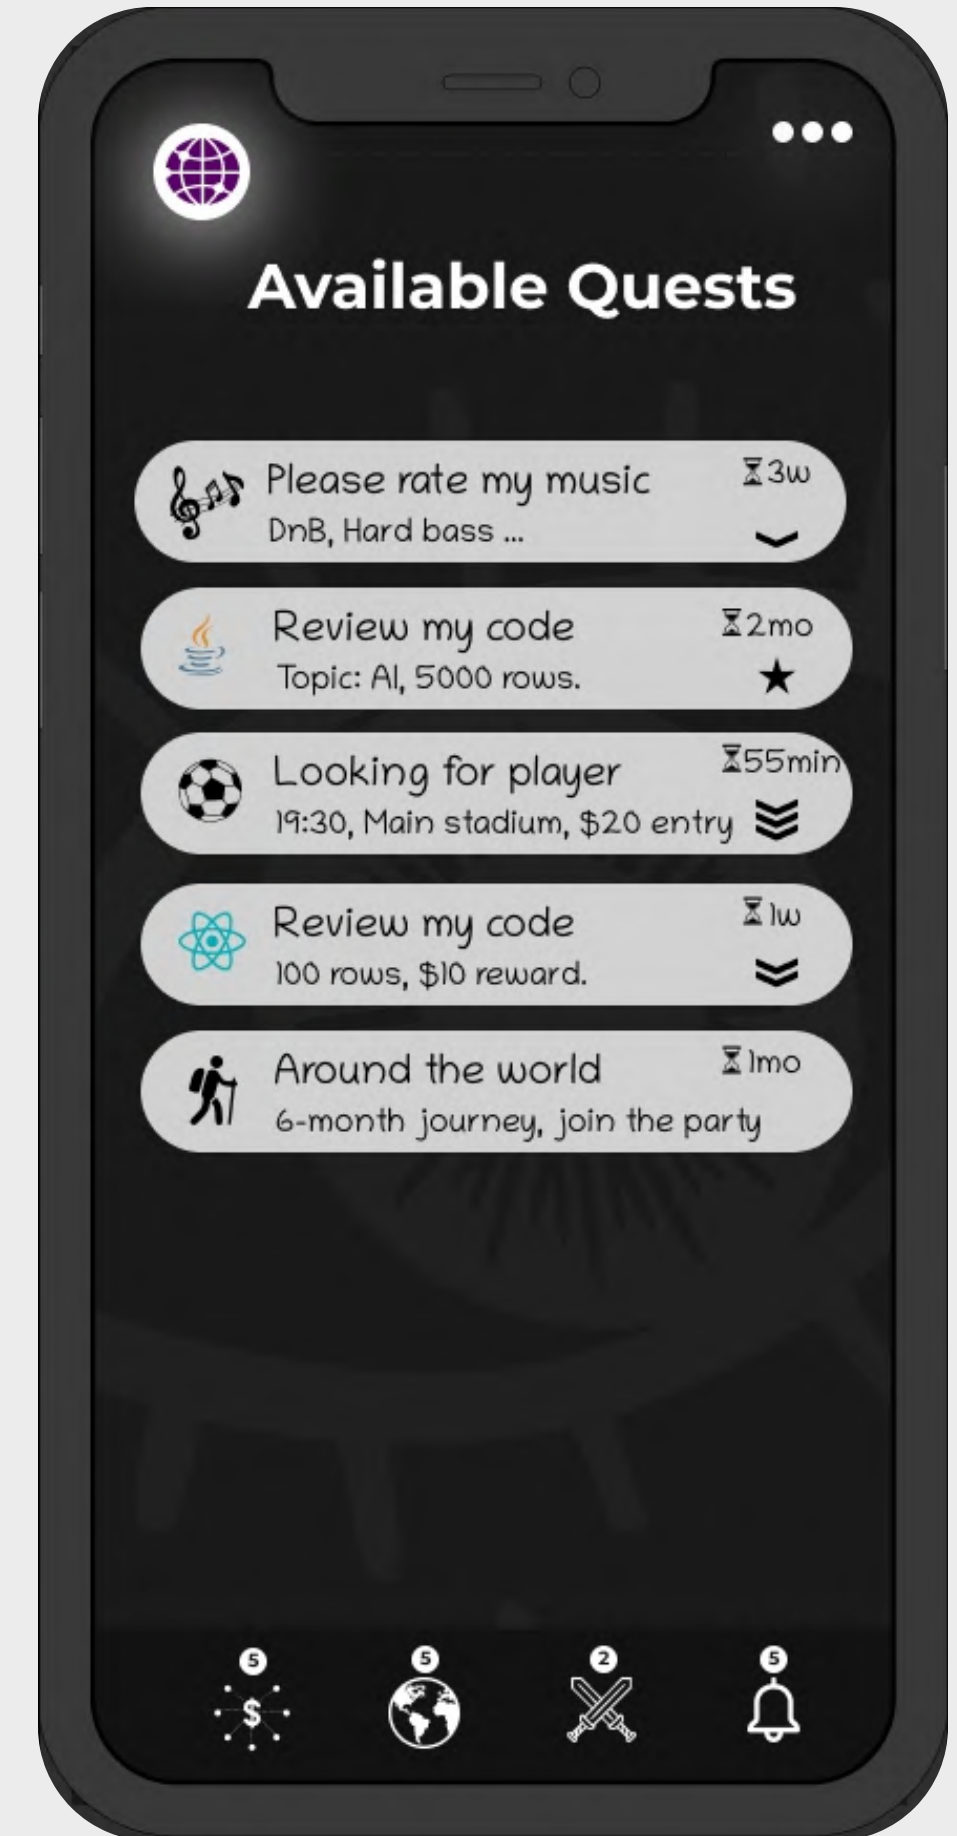

01 Software development

02 Music production

03 Academic research

04 Copywriting

05 Art design

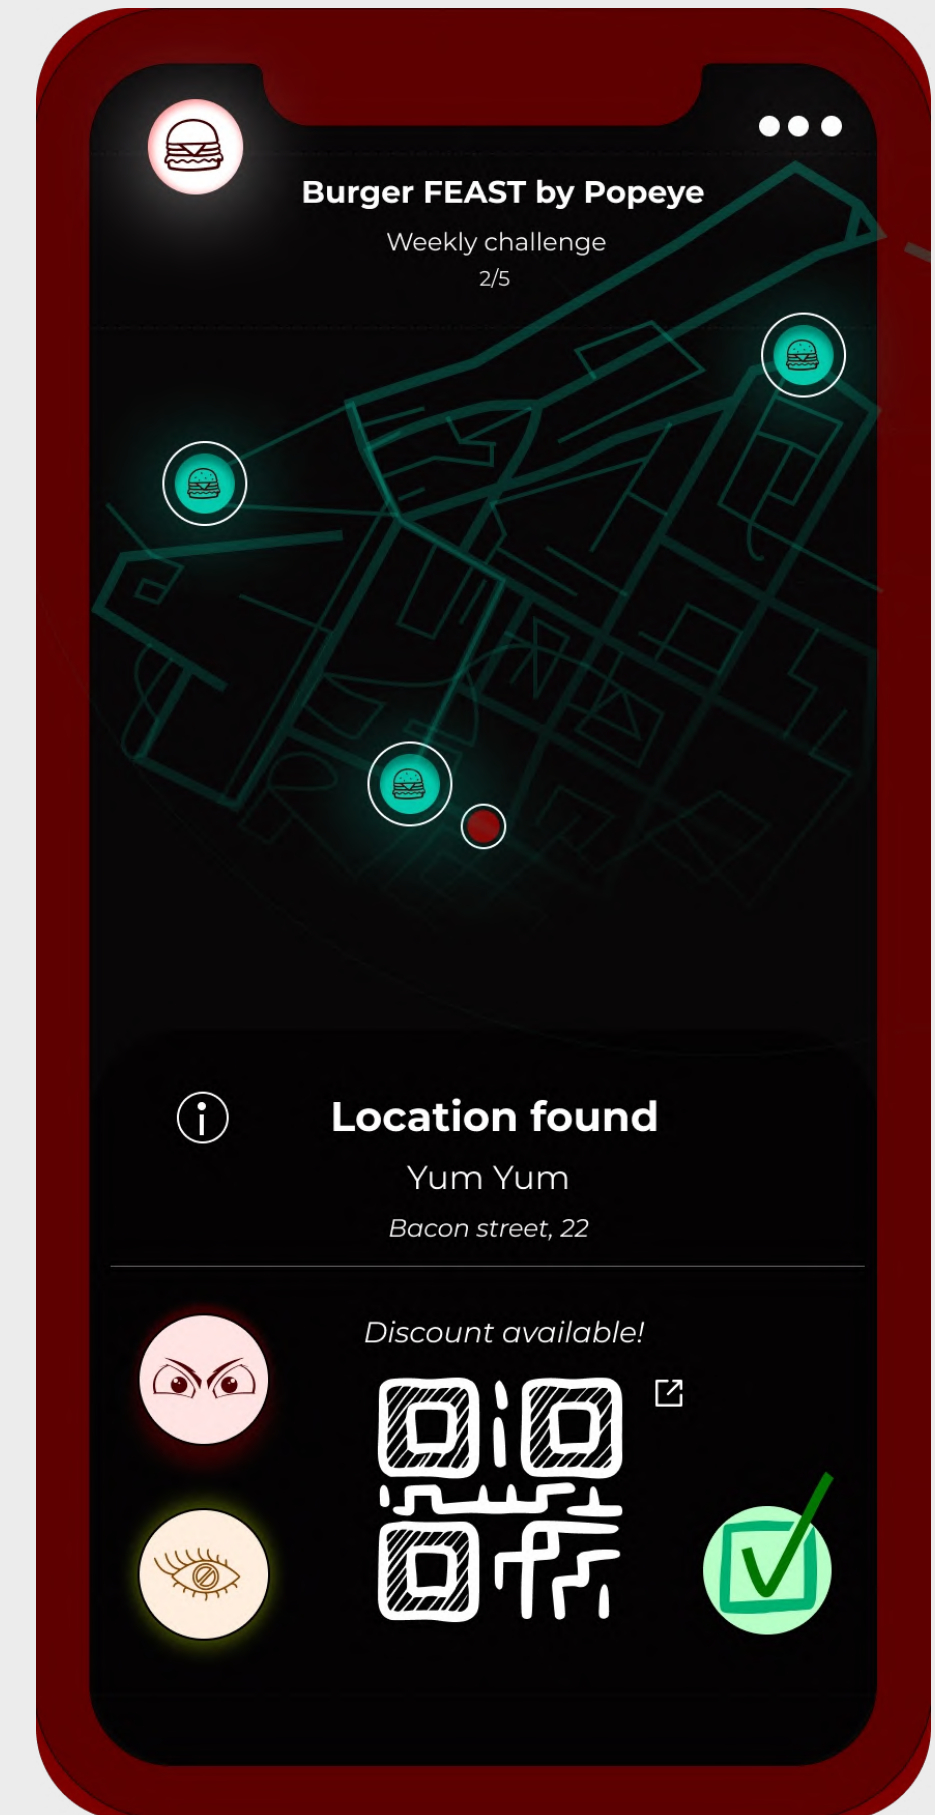

Features

FEATURE II. SHARK TANK

EXPOSE YOUR IDEA, PRODUCTS OR SERVICES

- 01 Tinder-like rating of startup ideas
- 02 Geographical map with limited QR discounts
- 03 Plugin with 1-click integration to web2 applications
- 04 Global service ranking per industry and category

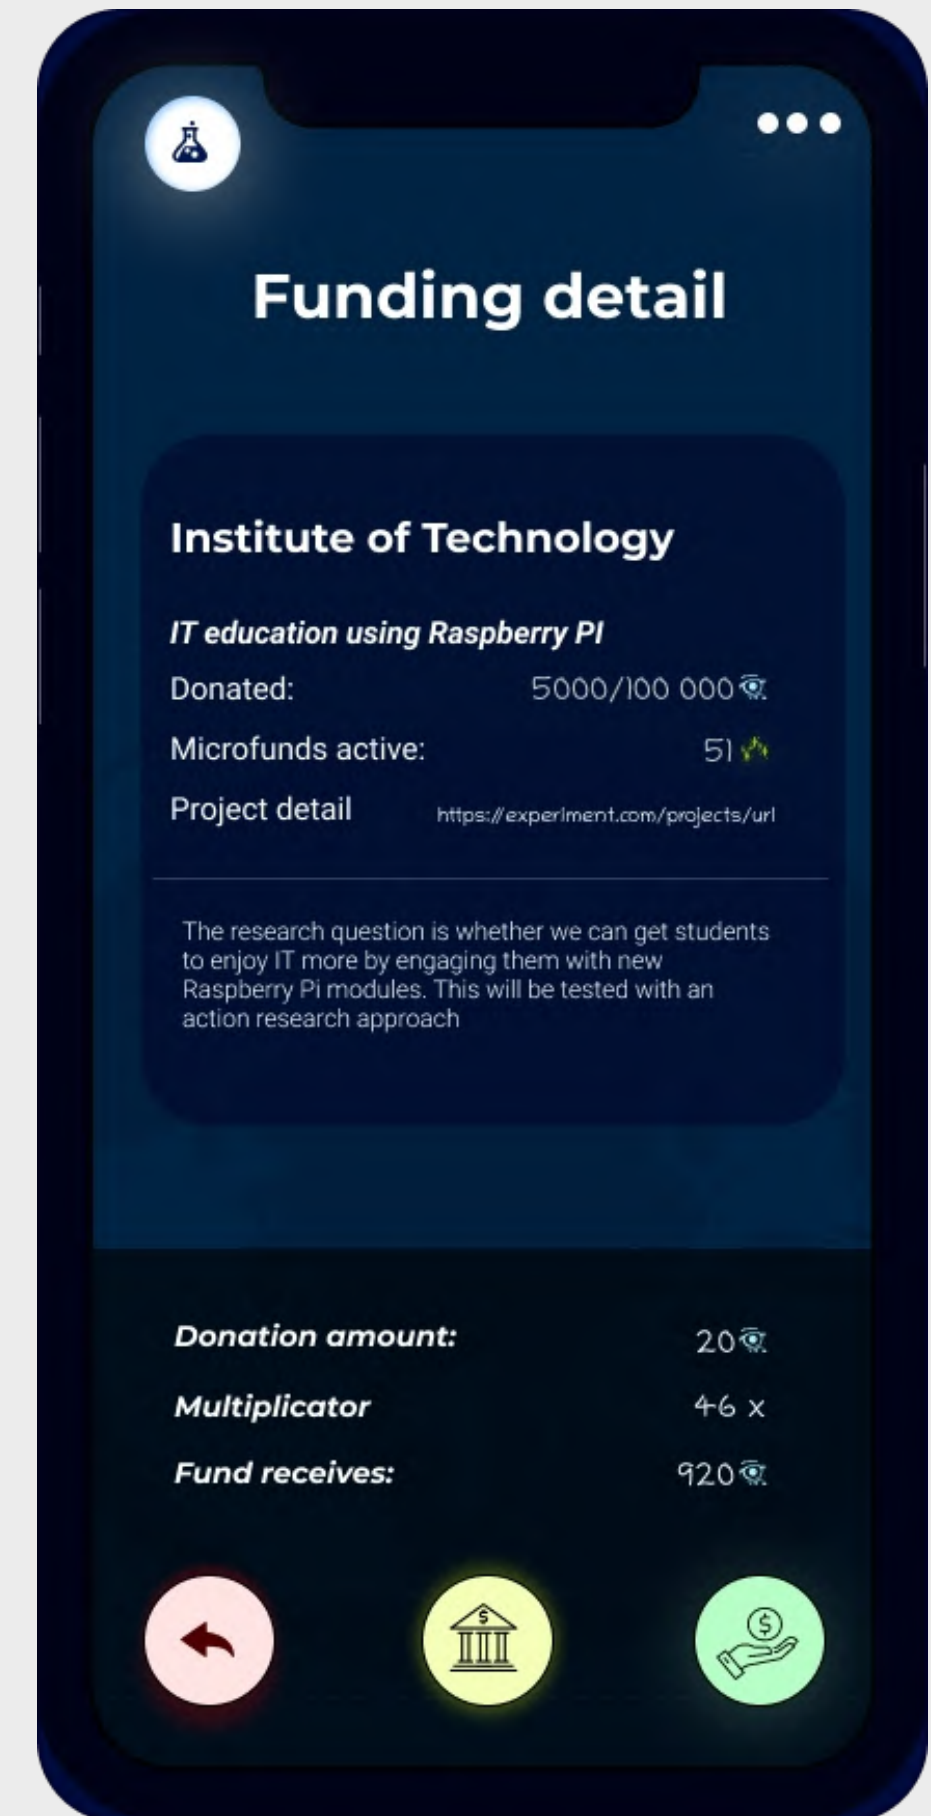

Features

FEATURE III. CHAIN FUNDING

NEXT STEP IN EVOLUTION OF CROWDFUNDING MODELS

- 01 Using quadratic funding concepts to make every penny accountable
- 02 Verified funding projects in Science, Education and Charity
- 03 Only 0.1% platform fee for successful fundings (Kickstarter 5-7%)
- 04 Settlement secured and guaranteed by smart contracts

Visions and concepts

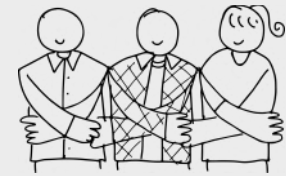

EYEESEEK - SOCIAL APP USING BLOCKCHAIN TO UNITE

GAMIFICATION

Game-fi concepts to make day-by-day activities more challenging and entertaining.

COMMUNITY-DRIVEN

Use-case agnostic architecture will allow users to extend Eyeseeek features to any world industry. Let's not stop in web3.

REPUTATION MODEL

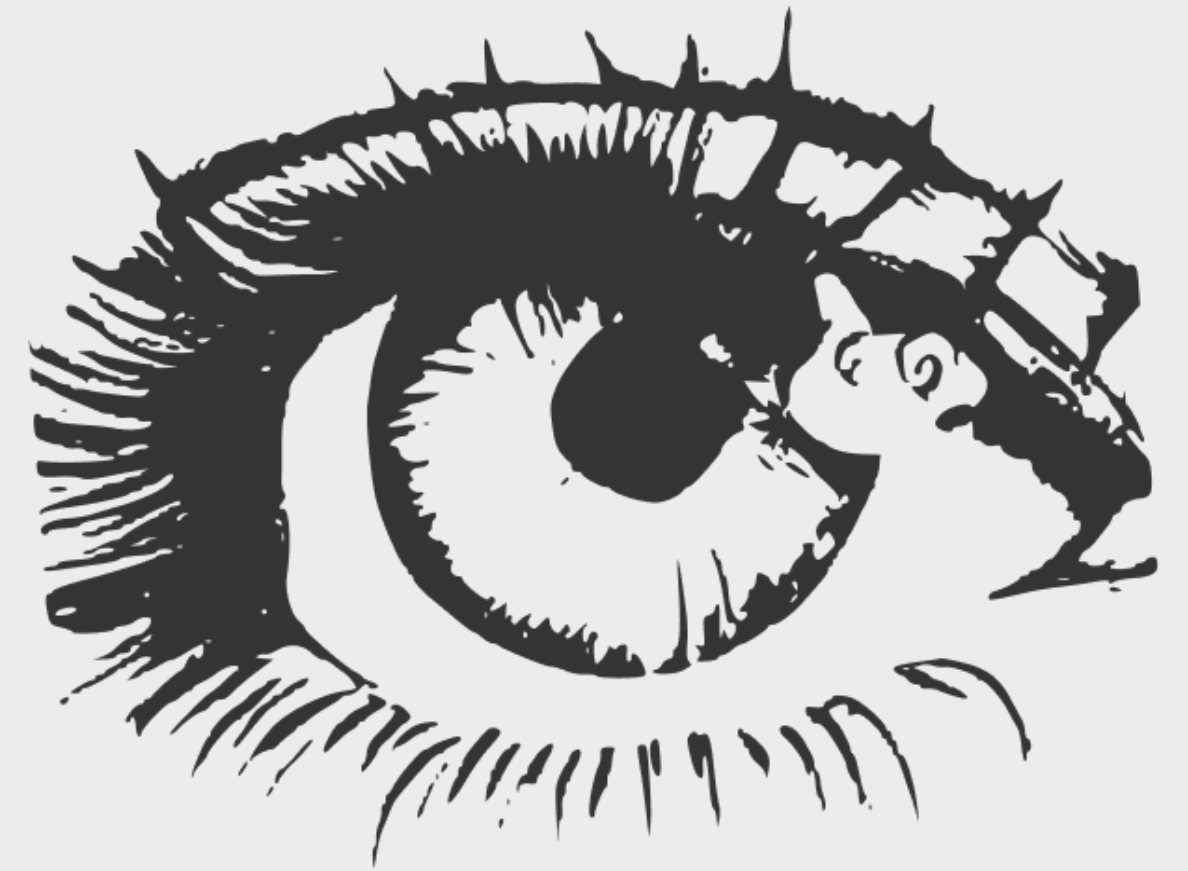

Gain reputation of an expert by helping other users with their task. Skill reputation could be used to find new job opportunities.

REWARD SYSTEM

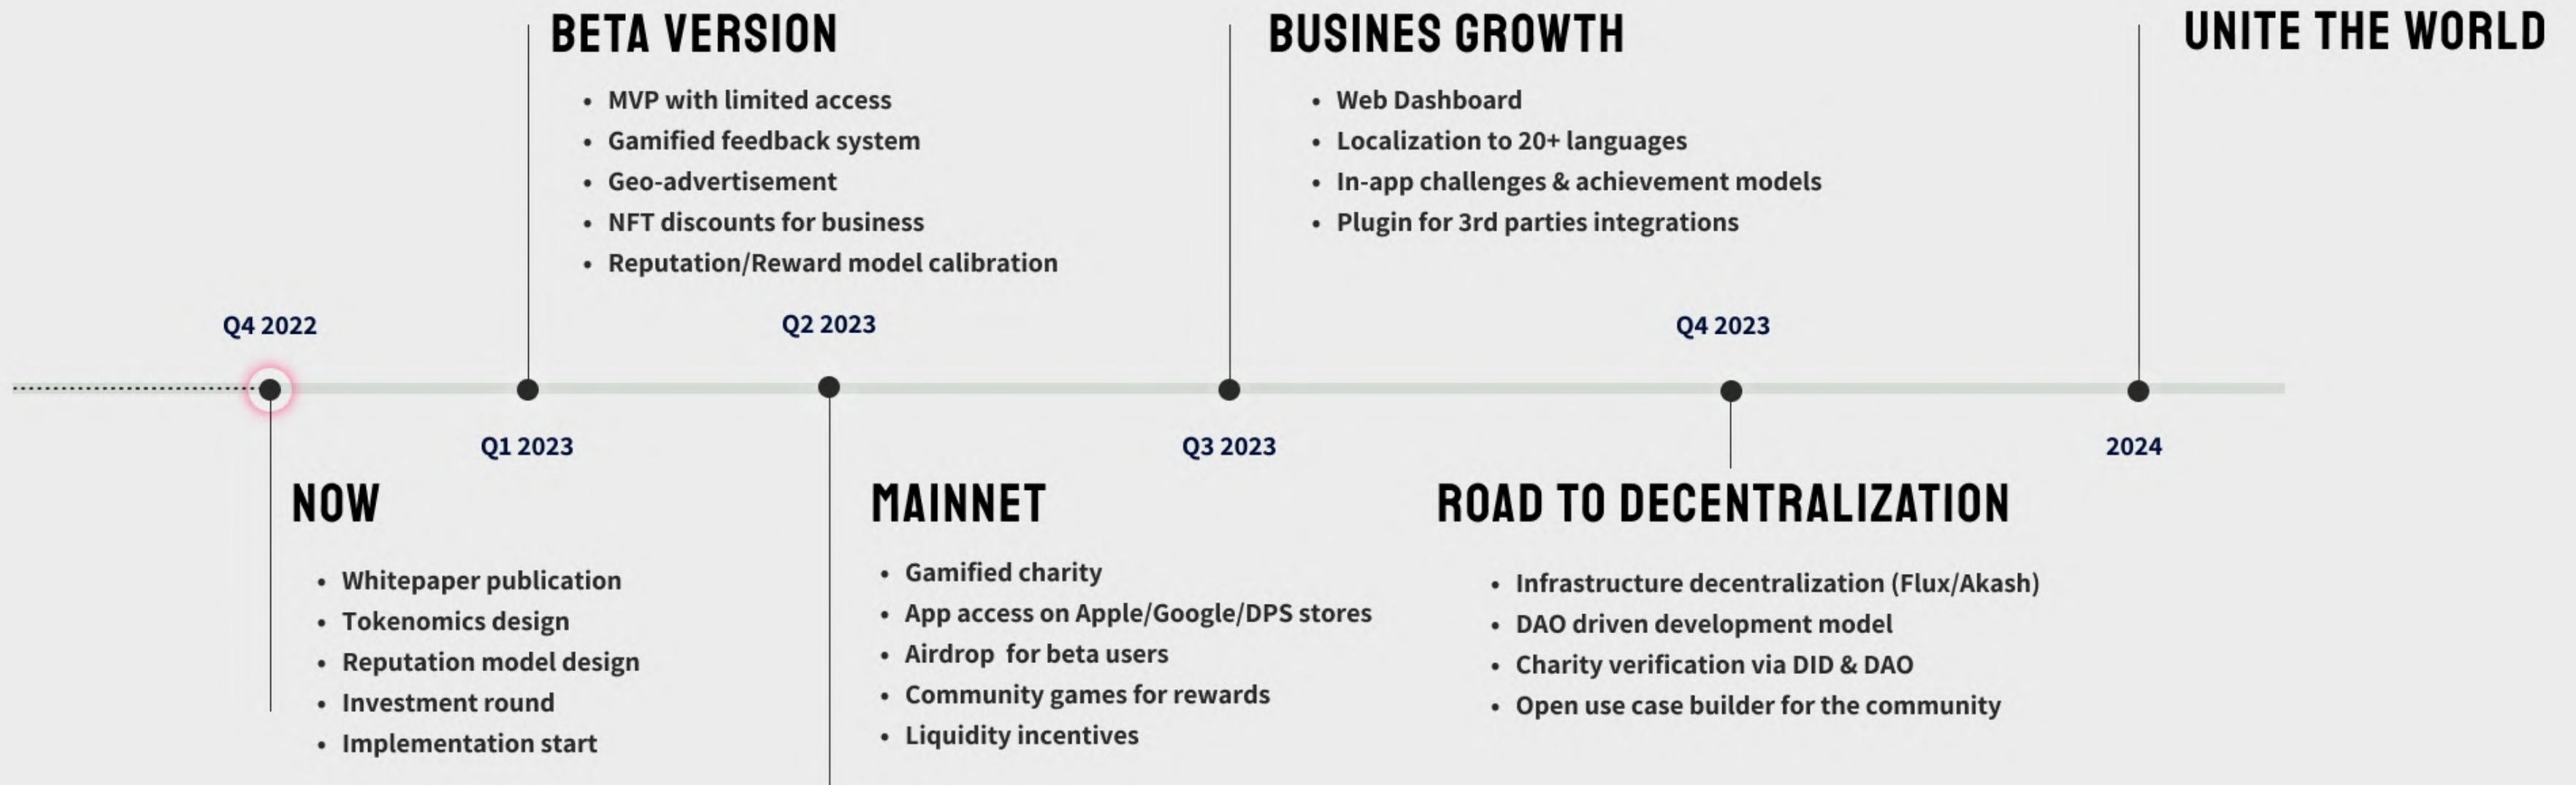

Only good deeds confirmed in app are rewarded by cryptocurrencies and NFT soulbounds, serving as a proof of legitimacy in other web3 dapps.

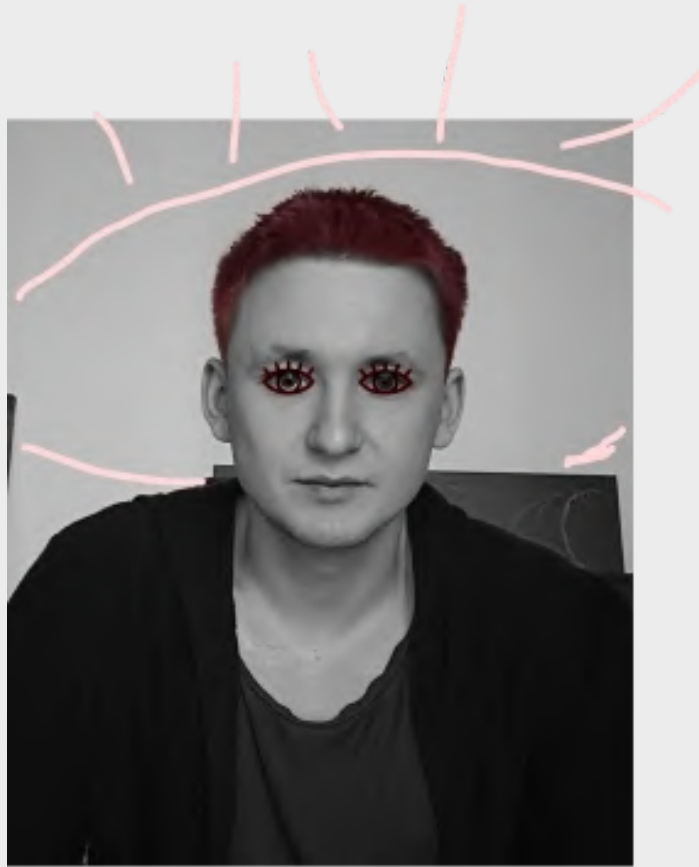

Roadmap

USING BLOCKCHAIN TO UNITE

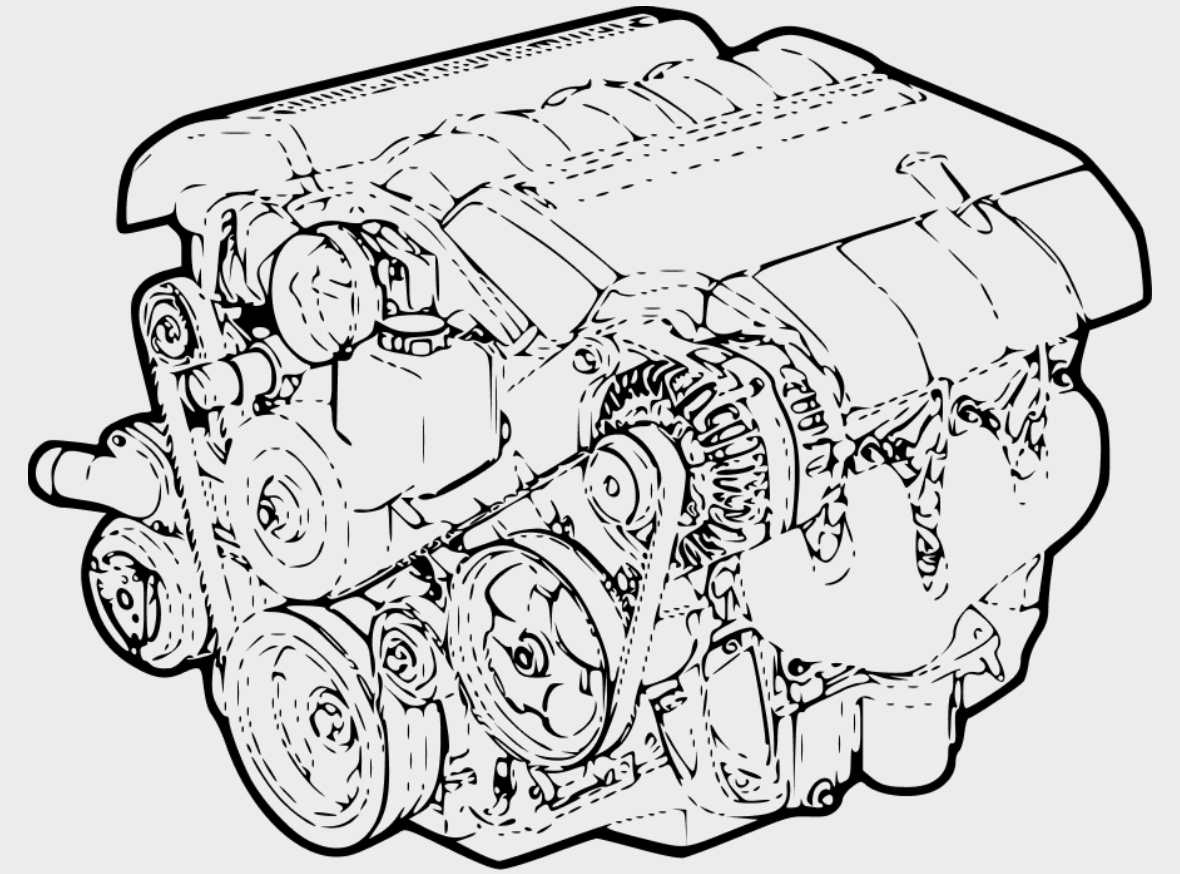

Team

FOUNDER, MICHAL KAŽDAN

IT systems analysts, specialized in fintech & web3 applications. Creator of an educational platform for web3 devs - [D3V Library](#).

Core team in Q4 2022
